65th Minute – Region I Sub – Cori Stark in for Caitlin Pfeffier

Alexandra Ellis in for Kelsey McQuaid

80th Minute- Fulltime Region I 3- Opponent 0

Overall: We were a sluggish to start the game and committed numerous unforced errors. We also become very stretched on the field and were not able to link up from front to back. As the game wore on our athletic advantage allowed us to take control of the game, we created numerous chances, but didn't take clear advantage of that. We took too many shots that weren't on target and we seemed to get flustered around the box. Defensively we were pretty solid, we weren't challenged that much with the ball so we did keep some possession, although in the first half we could have been hurt by some flat balls that we played in the box. In the midfield we seemed to be a little boxed in and that caused our attacking midfielders to become frustrated, but after some halftime adjustments, we created better angles and worked well off the ball and took control of the midfield. Overall it was a solid effort for the first game and it allowed our players to become more relaxed.

2nd Game: Sporting Huelva

Date; March 12th, 2009

Location: Huelva, Spain

74th Minute Goal Region I – Kari Quinn plays in Jessica Sloth who coolly beats defender to goal

Full Time Region I 7 – Sporting Huelva 3

Overall we did a very good job with our spacing despite the small dimensions of the field. We were able to keep possession and effectively changed the point of attack, which lead to attacks over top. We also did a much better job of finishing around the box. At times we were caught taking too many touches and that lead to some turnovers, which also lead us to take numerous fouls. It was this part of the game which we struggled, as we gave up too many set pieces in attacking positions and then we had trouble coping with the service. We allowed all three goals off of set pieces and could have been beat once or twice more. It was however our best team effort, as we seemed to finally be able to work together
